

March 15, 1973

CLERK: Read.

SPEAKER: The motion is to indefinitely postpone LR #9, the Chair recognizes Senator Simpson.

SENATOR SIMPSON: Mr. President and members of legislature, I think that we have gone through a great discussion on an issue that probably questionable legality on whether it can happen or not. We've allowed the people to come and talk we've had reams of paper put on our desk and we've had un-numbered totals of letters written to us, both in behalf of the resolution and opposed to it. We let the people speak on it, I think there in some way might be a better understanding now of what the amendment does, I think that we should now dispose of it, put it down the drain, where it belongs.

SPEAKER: Any further discussion of the motion to indefinitely postpone. The Chair recognizes Senator Chambers. Do you want to yield to Senator Proud? The Chair recognizes Senator Proud.

SENATOR PROUD: Senator Chambers I yield to you because I was going to move the previous question.

(End of Belt #3)
